Future Funding of Domestic Water Services

Ensure long term funding certainty for Irish Water to plan and deliver critical water and waste water infrastructure for Ireland.

Establishment of a Drinking Water Inspectorate to have one national body that makes critical determinations regarding public health.

Achieve significant water conservation in an efficient and economical manner by extending the benefits of water metering via new build development.

Build public understanding of the progress being made now and that must continue to be made in future to repair, expand and transform our water and wastewater infrastructure in the interest of the entire country.
